

ELECTRONIC VISIONS, INC.

Model SCSI-8XXX SMD- TO -SCSI DISC SUBSYSTEM

***DIRECTLY REPLACE SMD DRIVES**

***INCREASE DRIVE RELIABILITY**

***DECREASE REPAIR COSTS**

***REMOVABLE MEDIA OPTION**

***DUAL-PORT OPTION**

***LOWEST PRICED SMD REPLACEMENT**

OVERVIEW

The SMD to ESDI disc subsystem, using the existing SMD disc controller, directly replaces the CDC, NEC, TOSHIBA, PERTEC, SABRE and AMPEX disc drives installed on MODCOMP systems during the 1970's and 1980's.

Absolutely no software or other hardware modifications are required.

PRICING

EVI's SCSI-8XXX is one of THE LOWEST PRICED SMD DISC REPLACEMENTS on the market. You can replace your SMD discs with one of our NEW SCSI subsystems for about the same cost as repairing the old

one.

RELIABILITY

SCSI disc drives are much more reliable than the old SMD type drives. Typical MTBF for an SCSI disc is 150,000 hrs, or 17 years. EVI's removable disc option maintains this high reliability by removing the entire sealed disc unit thus avoiding the disc drive contamination problems of the old style removable disc packs.

REDUCED POWER CONSUMPTION

Compared to a CDC 9766 disc drive, including the additional air cooling required, the SCSI-8XXX Disc Subsystem can save you \$3,300.00 or more per drive per year in electricity costs.

QUIETER COMPUTER ROOM

Old CDC 9762, 9766 or AMPEX DM 91/92/9300 style drives create very high noise levels in the computer room. The SCSI-8XXX disc subsystem generates less noise than a typical personal computer, making for a more comfortable working environment.

HARDWARE (SUPPLIED)

Rack-mountable industrial chassis equipped with one or two SCSI drives; one power supply and protocol translation card per drive; front panel control switches and LED indicators for write protect, reset, fault clear and drive ready; optional dual-port and removable disc carrier.

HARDWARE (REQUIRED)

MODCOMP 4138,4143,4176A,4180, or 4186 SMD disc controller; external device cables from MODCOMP controller to SMD disc.

Electronic Visions, Inc's products are of the highest quality and designed with the customers needs in mind. All products are delivered with a one year, return to factory warranty.

If you would like more information on this or any of the other products offered by Electronic Visions, Inc. please contact us at any of our offices listed.
